Introduction to Cause With Community

Fierce competition for funding. Difficulty in gaining attention. The global financial crisis. Conditions for cause based organisations have never been so complex. Great Place can help your organisation find opportunities in the midst of this complexity

Description

You will learn how Great Place can enable your organisation to generate strategic change ahead of change.

Be introduced to some of the emerging local and global conditions that will impact your organisation.

See how the Great Place approach can lead to a transformation of your organisation.

The introduction is a two hour interactive workshop held either on-site at your organisation or online.

Outcomes

You will gain a basic understanding of the Great Place approach and method.

You will also gain early identification of key issues – challenges and opportunities that are facing your organisation and action which you can take to take turn both these challenges and opportunities to your advantage.
