

## Communities Owning Their Future

### Customised Programs

Want to take your organisation to the next level? Talk to us about developing a customised program to suit your unique needs.

### Cause With Community Lab

Fierce competition for funding. Difficulty in gaining attention. The global financial crisis. Conditions for cause based organisations have never been so complex. Great Place can help your organisation find opportunities in the midst of this complexity

### Description

Build on the findings from the Great Place Cause With Community Primer to start generating change ahead of change.

Dig more deeply into the emerging local and global conditions and understand how to keep abreast of them by using the Great Place network.

Use the Great Place approach to identify and plan to build some of the key capabilities your organisation needs to give your strategy traction.

The Lab is a full day interactive workshop held on-site at your organisation.

### Outcomes

Advanced understanding of GP approach and method.

Further development of your Great Place based strategy to assist your organisation to achieve its goals and stay in front of your competition.

Identification of key capabilities required for your organisation to generate opportunity.

Initial plans to build key capabilities for your organisation.
