

Communities Owning Their Future

Customised Program

Talk to us about developing a customised program to suit your unique community needs.

Would you like to own your future?

Great Place can show you how.

Introduction

We will explain the process to you and show you how it will help you own your future.

Primer

Use our ½ day workshop to start to understand the conditions impacting your community and their impact on what your community values.

Community Lab

Over two ½ day workshops you will dig deeper into the conditions impacting your community and what capabilities you need to generate value for your community. You will also learn how to take catalytic actions to build the capability you need.

Great Place is...

Community driven strategy.
Seeing the bigger picture.
Delivering tangible results locally.

How do we start?

Check out our website and then contact us to arrange an introduction for your community.
